

Rotary District Governor Jim Shreck of North Platte commended the Imperial club for being one of few clubs to show a growth in membership the last year.

He took pride in sharing the ongoing accomplishments of Rotary Clubs around the world and emphasized the need to continue to strive to increase individual involvement in the local club as well as focusing on club involvement on the community, district and international levels.

Health, literacy and safe water continue to be Rotary's areas of interest around the world and members were encouraged to identify needs in those areas.

Imperial President David Kahle took over the leadership reins of the local club from outgoing President Lola Jones on July 1. The club meets every Tuesday over lunch.
