The Imperial Republican

Little ones eager to farm now have the opportunity to ride a tractor at First United Methodist Church in Imperial.

Doug and Judy Gaswick recently completed the wooden tractor, which took just over a weekend to construct.

The two based the tractor on a pattern they used for a train, with Doug then adding different dimensions.

The Gaswicks have also made the train, house, bus and stagecoach that grace the church's playground.

"It's fun. We like to do it," Judy commented.
