The Imperial Republican

Fourteen vendors have committed to display their wares during the Imperial Chamber of Commerce's second annual Ag Technology Fair Thursday, Jan. 14.

The expo will be held in Imperial at the St. Patrick's parish hall from 11 a.m. to 3 p.m. and will include a meal served by the St. Patrick's Altar Society.

Clint Johnson, chairman of the event, said he's looking forward to another successful tech fair. He said there was great response to the inaugural event last year and expects a similar response this year.

The fair brings vendors together with farmers and ranchers to share how they can improve their operations through innovative, cutting-edge technology available through the vendors.

This year's vendors include:

Chase 3000, Great Plains Communications, Curly Olney's, Frenchman Valley Coop, 21st Century Equipment, Pioneer Hybrids,

Valley Pro Irrigation, Seth Spicer, Lamar Fertilizer/Kugler, Ag West Commodities, Prairie States Communications, USDA, Nebraska College of Technical Agriculture and Lindskov Ag.
