

Board members of the Upper Republican Natural Resources District will meet for a special meeting Dec. 6 in Imperial, beginning at 9 a.m.

The primary topic of discussion will center on what the water allocation will be for the next allocation period, which begins in 2013.

The previous five-year allocation was set at 13 inches per year.

Discussion on rules and regulations dealing with carry-forward and pooling is also expected. The board will also hear updates on the augmentation projects.
