

Steve and Deborah Schilke and their family have been busy recently, pruning the vines of their grape vines at the site of their new winery. The vines are bearing several varieties of grapes, which the Schilkes plan to bottle for their Broken Arrow Cellars' wines, located along with the vineyard at the intersection of Grant Street and Highway 6. Joe Callihan Construction of North Platte and Paxton is the contractor for the building, with Dale Schilke overseeing the project. The Schilkes plan a winery, tasting room and banquet hall in the building. (Republican photo)
