Thirty-one eighth graders and 20 from the seventh grade class are listed on the second quarter honor roll at Chase County Schools.

The quarter ended right before the Christmas break. The 51 honor roll students represent 51% of the eighth grade class and 44% of the seventh graders.

The honor roll is divided into three areas for recognition—All A, which is self-explanatory; high honor roll, received for earning all A's and B's; and the regular honor roll, which includes students earning nothing lower than one C among their quarter grades.

Here is the second quarter honor roll list released by Guidance Counselor Donna Fisher.
