Dan Lenners' PE students at Chase County Schools are all wet. That's because they just finished six weeks of swimming and scuba lessons.

About 50 students participated, with the last two weeks devoted to learning to scuba dive.

Four days prior to that the youth learned to snorkel in preparation for the scuba lessons.

Equipment for the lessons was provided by the Imperial Volunteer Fire Department Dive Rescue/Recovery Team and by Greg Koellner.

Instructors were Rob Browning, Rob Lueth and Jon Richman, members of the Dive Team, and Jodi Koellner.

This is the fourth year scuba has been offered at the school, Lenners said.
